Att: Mr. Robert Senyk

Gentlemen:

Confirming our telephone conversation today, please be advised that we have no record of having done business with PJP for the years 1969, 1970 and 1971.

During those years, our firm used the City of Summit and Chester Hills Landfill for dumping.

The image shows a document with a grid-like structure, likely a ledger or form. The top section contains several small, illegible boxes, possibly for dates or identifiers. The main body of the document is filled with dense, dark, and mostly illegible text or markings, possibly handwritten or printed. The right side of the document shows a vertical column of small, light-colored rectangular areas, which could be checkboxes or small data fields. The overall image quality is very poor, with significant noise and loss of detail.

The image shows a document with two punch holes at the top. The text is mostly illegible due to heavy noise and high contrast. In the upper center, there is some faint text that appears to be a title or header. Below this, there is a large rectangular area containing a grid or table structure, which is also heavily obscured by noise and artifacts. The overall quality is poor, with significant black speckling and white noise throughout.

T/A PJP

Att: Mr. Robert Senyk

Gentlemen:

Confirming our telephone conversation today, please be advised that we have no record of having done business with PJP for the years 1969, 1970 and 1971.

During those years, our firm used the City of Summit and Chester Hills Landfill for dumping.

Very truly yours,
